

CAPABILITIES

Action Technology Services is an innovation leader in Audio Visual/Video Information Systems Design (AV/VIS) and Software Development. Our Team has designed, integrated and programmed over 300 AV/VIS Systems in Department of Defense and Federal Command & Control Facilities at the Secret & Top-Secret level. **Our breakthrough software first approach is proven to reduce AV/VIS software integration costs & schedule by 30% - 70%** over industry standard AV/VTC software design & integration methods.

For 20+ years, Action Tech's seasoned leadership team led efforts to modernize the IT infrastructures at Army Posts, Camps & Stations across the CONUS, Europe, Pacific & Southwest Asia Theaters of Operation. As former Army Project Managers for PEO EIS and Systems Engineers for the Army's Information Systems Engineering Command, Action Tech's leadership is uniquely qualified to support modernization of the Army's Data/Voice systems and infrastructures.

Why Choose Action Tech?

- ✓ As former DoD Acquisition Professionals, the Action Tech Leadership team managed over \$1.5B in professional services, AV/VIS and IT system/infrastructure design and installation contracts. We know what exceptional contract support looks like and we are committed to providing it to our customers.
- ✓ **Our customer focused, DevOps** approach to Audio Visual Information Systems design is unique to the industry. Where current AV Industry design methods focus on how AV systems look, our approach focuses on how the AV system **maximizes the user experience and mission productivity**. Not only has our distinctive **approach** proven to reduce AV Software integration costs, but it virtually eliminates the often-costly reprogramming required to "dial-in" AV control systems long after system completion. **Our approach gets it right the first time.**

SERVICES

- ✓ **AV/VIS System Technical Support**
 - Conference Room Upgrades & MS Teams Integration
 - **Digital Signage**
 - AV/VTC System Design, Programming & Integration
 - User Interface Optimization & Simplification on existing/operational Touch Panels
 - On-Site AV/VTC System Operations & Sustainment
- ✓ **On-Site Project Management & Technical Support**
 - Project Managers
 - IT Subject Matter Experts
 - Financial Analysts
 - Cybersecurity Specialists
 - Copper, Fiber, VoIP, AV/VTC & Wireless Infrastructure Quality Control Inspectors
 - Network & Data Center Admins & Technicians
- ✓ **Wired & Wireless Infrastructure Design & Integration**
- ✓ **IT Hardware & Software Procurement & Integration Services**

PAST PERFORMANCE

- ✓ **Prime Contracts**
 - Infrared Power Survey – Tucson VA Hospital
 - AV/VTC Upgrade – Luke Air Force Base
- ✓ **Sub-Contracts**
 - Network Quality Control Inspection – US Army Europe
 - AV Programming – Army Material Command HQ
 - AV System Design/Build – Luke Air Force Base
 - Project Management Consultants – FT Huachuca AZ
 - Satellite Terminal Install/Deinstall – Worldwide
 - AV/VTC Ops & Sustainment – Army Corps of Engineers

CORPORATE SNAPSHOT

- ✓ SAM UEI: Z4JMBQP46GF7, **CAGE Code:** 8CHV7
- ✓ **Primary NAICS: 541512** (Computer Systems Design Services)
- ✓ **Additional NAICS:** 541330, 541511, 541513, 541519, 541618, 541611, 541990, 518210 & 611420
- ✓ **Service-Disabled, Veteran Owned Small Business**
- ✓ **Located in Sierra Vista, AZ just outside Fort Huachuca**
- ✓ **AZ SBA POC:** Shivani.Dubey@sba.gov
